STNA Pathway

One of the important aspects to remember about the pathway options being offered it that students are able to demonstrate that they are career ready within high-demand fields even before earning their high school diplomas. During the month of February, we were able to train a group of students in preparation to pass the State-Tested Nursing Assistant exam, which is considered an industry-recognized credential and assures that students have fulfilled the requirement to demonstrate job readiness. This will also earn one of two required seals on their diplomas.

Under the guidance of Mrs. Dancy, former CASTLE Principal and current Director of Social-Emotional Learning for our management company, the students prepared for their exams and practiced their newly-acquired skills on the mannequins. RJ is looking forward to being finished with high school this year so he can move on to bigger and better challenges.

“If you are going to achieve excellence in big things, you develop the habit in little matters. Excellence is not an exception, it is a prevailing attitude.”
 --Colin Powell, former U.S. Secretary of State

In preparation for our Black History Month program, students have created posters of who has most inspired them. These posters will be on display in our “Gallery of Heroes”.
